The Slim Man's Remarkable Shot.

A number of gentlemen were in the lepot waiting-room admiring a fine lot of ducks a friend had shot up on the lake, and were somewhat surprised to hear im tell of killing three ducks with one lischarge of his gun. About this time shim, pointed-nosed man, who had been quietly listening, remarked: . "That's nothing very extraordi-

"May be that's the way you always kill ducks," sarcastically remarked the

"Wal, that depends on how I load my gun," replied the slim man. Then it does make a difference how you load, does it? I presume you use about a peck of six ounce bullets," re-

'Wal, now, don't you get rattled. I don't know as I'll give the scheme away," retorted the slim man. "How many ducks did you ever kill in one shot?" asked an interested list-

"Wal, stranger, I've killed and strung over fifty of 'em," answered the slim man.

"Yes, over fifty," replied the slim man, "an' I don't mind telling ye how 'twas done, if ye really want to know." thing, you must have been where the extent, brought the cultivation of this ducks were thick?" ventured a meek- crop into disrepute. Yet it is a grain

tell ye. I took a trip up to Calumet several years ago and I never seen so many ducks in all my life. I took an under this act to any State or Ter- tune came upon Mr. Hull and his old army musket along and one cart filled with stumps, as it is branching in "One cartridge!" exclaimed half a

dozen. You didn't mean to say you may be sown upon the loose soil about only took one cartridge and no other ammunition?" "Wal, I didn't take anything else of school revenue, or in the school the wife always dutifully read to but an old army musket, one cartridge

and a big spools of wire thread. That's the sum total of what I always take You see, I_" "What was the wire for?" inquired

TO PRINTERS! We have for sale, at 20 cents per Culture of Buckwheat.

This is a grain well known to mee orthern farmers. It is said to have on formerly called Beechwheat owing

beechnut of the forest.

It grows quickly even on light, poor soils, but attains perfection, giving feruna rative crops, only on land quite fastilizing properties. Sandy ca in fertilizing properties. Sand its culture, especially if it be an

pa-ture field recently plowed. At the North it is usually sown about the first of July, and should not vary ten days from the date named. If sown earlier, the dry, hot day's of August and September often blast the kernel when forming; while if the seeding be negceted until about the first of August, it is extremely liable to be injured by frosts before reaching maturity.

Buckwheat is a crop for the careless farmer as well as the smart and enterising one. The labor of preparing he land comes when the hurry and bustle of "spring work" are past, only he growing corn demanding the husshould be as carefully plowed and harrowed as for wheat, barley, or any similar crop. By far too many are careless in this respect, often letting their cheapest help plow and fit the ground for it, saying to the laborer: "You need not be particular about the work, as it is 'only for buckwheat.'" It is this "How on earth could you do such a class of farmers who have, to a certain ooking individual.

"Wal, if ye'll give me a chance I'll that will respond generously to good cultivation, and upon soils adapted to

> It seems to be well adapted to subdung new ground, or as a crop for fields ground; and as it germinates readily, it stumps, roots and snags with almost a certainty of growing, even if not har-

From two to four pecks is the quanof seed sown per acre. Two varies are grown, the black and the gray. The latter is usually considered the best to yield, but will not stand the hot weather quite as well as the former. By that this process will remove that porcertain, as now manufactured, the flour out the former decidedly buckwheat

because it shells so readily and gets into the manure of the yard, and is thus scattered about the farm, depreciating the value of an otherwise good crop of wheat or barley. Some dealers object to buying even oats containing a mixture of this grain, while other dealers prefer if possible to have it thus mixed. Unless intended for grinding or home use a crop of barley should never succeed that of buckwheat, for the nearly uniform size of the kernels prevents their entire separation with the fanning-mill or other contrivance .--

horse States, with number of horses respectively, were: Illinois, 1,023,082; Ohio, 786,478; New York, 610,358; Pennsylvania, 533,587; Michigan, 378,-788; Kentucky, 372,648. Two-thirds are draught and all-work horses, and one-third are used for pleasure-driving.

Printers' Errors.

-Chicago Times.

As a class, the manipulators of type may truthfully be called the best (and worst) abused men in the world, and outside of the trade know the difficuleven a faint conception of the skill, care and patience required. Absolute correctness is a prime essential to selittle is done in the way of assistance. which is called "good" is often the very not know exactly what he needs. If he may be perverted ones, and the little smattering he has of the art tends to bilities. His judgment has not been trained in the matter of letters. He knows nothing of "justification" except that he believes he has it in the largest sense to give the printer "particular fits" when an error is found. Why sixhis ideas of eternal fitness of inanimate the most simple of undertakings to set. make up and work off one hundred

reasonably short space of time.

Before pouring out the vials of their might be well for men to pause and consider how much he is to blame. Somewhere in our desultory reading we have met with the statement that any old piece of Mosale work containing a few minute particles the printer is required -"Is this train to stop at Neponset?"! Take a solid page of the Cabinet as an a passenger asked a conductor of the example. It contains some 27,000

We write not thus for the craft. They practically know the truth of our words. But we do write for the multi-

tude of outsiders, and with the hope that the simple illustration we have given may open their eyes to the great injustice done to those who, "with their noses in the space box," toll away their lives for the benefit of the world at large. Rounds' Printers' Cabinet.
